

This manual semi-automatic eyeleting machine. Feeds the eyelet to the setting dies via a hopper fed raceway and then in a single action punches out a hole in the material while simultaneously setting the eyelet without the operator having to handle the components.

- Solid construction
- Manual pedal operation.
- Sets eyelets in a variety of materials including plastic, paper and leather
- Cuts hole in your material and sets eyelets in one action.
- No electrical or pneumatic connections required.
- Back and side stop for accurate placement of work.
- Foot pedal operation leaves both hands free.
- By changing the dies, bowls and raceway, different sizes of eyelet can be used.
- Supplied with full operating instructions.

- **Footwear**
- **Packaging**
- **Print finishing**
- **Electronics**
