

Perfect for vinyl banners, Hand operated eyelet press for setting both metal self-piercing and plastic eyelets with an internal hole sizes up to 16mm diameter.

Works with:

- Self-piercing Eyelets
- PolyGROMS™

Utilises special dies that cut and then set the eyelet in one action, so no need to change between cutting and setting dies or move material from the machine between.

Setting dies can be quickly changed to fit different sized eyelets. Our high quality CNC produced dies are made from durable stainless steel or hardened tool steel to ensure long lasting service.

Will work through multiple layers of material with ease.

Watch the video

- Easy setup and operation.
- Quick, single action.
- Designed to reduce the amount of force required to cut and set.
- Strong and durable.
- Does NOT need to be fixed in position to operate.
- Supplied with full operating instructions.
- Storage bins for components
- 1 year Warranty.
- A video of this machine can be viewed on our website

Can be adjusted to operate from the front or back
