

Designed for high volume constant use, this fully automatic eyeleting machine feeds both the eyelet and backing washer to the setting dies via hopper fed raceways. Then in a single action punches out a hole in the material while simultaneously setting the eyelet without the operator having to handle the components.

- **Sail Eyelets**
- **Grommet Eyelets**
- **Plastic Eyelets**

- 240 volt single phase power supply.
- Does not normally require pneumatic service*.
- Automatically compensates for variable material thicknesses.
- Quiet operation.
- Sets eyelets in a variety of materials including plastic, paper and leather.
- Laser and Back stop for accurate placement of work.
- Foot pedal operation leaves both hands free.
- Large capacity component bowls.
- A video demonstration of this machine can be viewed on our website.
- Available table mounted EMJ239 or a mobile version EMJ239M on wheels

*some small or light components applications may need an air blower on the raceways.

TECHNICAL DATA

Model	EMJ239	EMJ239M
Height	1490mm	830mm
Width	900mm	730mm
Depth	700mm	570mm
Weight	138kgs	110kgs
Power Supply	240 volt single phase	
Max hole size of eyelet	17mm (4 Grom/32 Sail)	
Setting per minute (up to)	100	

Setting options:

Sail eyelet & Neck Washer	<input type="checkbox"/>
Sail Eyelet	<input type="checkbox"/>
Grommet & Spur Washer	<input type="checkbox"/>
Grommet	<input type="checkbox"/>
