

This compact high performance machine takes the strain out of inserting all types of eyelet.

Totally air operated . Will in one single action punch out a hole in the material whilst simultaneously setting the eyelet or grommet.

- Grommet Eyelets
- Sail Eyelets
- T.I.R Eyelets (Round & Oval)
- Curtain Eyelets

- Does not require any electrical connection
- Extremely simple to operate.
- Sets sizes up to 66mm hole diameter
- Sets eyelets in a wide variety of materials including vinyl, plastic, canvas, cloth and leather
- Side and Back stop for accurate placement of work.
- An optional laser can be fitted as an alternative way of positioning material.
- Foot operated pedal leaves both hands free.
- Finger guard protection mechanism prevents operation when dies are obstructed.
- Available with or without bench, or mounted on castors for moving around the floor/ table when working with very large pieces of material.
- We can even supply an appropriate compressor if required.
- A video demonstration of this machine can be viewed on our website.
